Sahaja meditation is a simple but powerful energy-based meditation technique. It enables you to harness the power of your own inner energy to improve every aspect of your mind, body and soul. Through the unique state of thoughtless awareness, Sahaja becomes a practical tool for self-discovery and an effective strategy for improving emotional, cognitive and physical well-being.

Sahaja meditation has been around for nearly five decades. The Sahaja practice was founded by a renowned spiritual guru, Shri Mataji Nirmala Devi, who hailed from India (1923 – 2011). Today, it is practiced in more than 90 countries worldwide by people of all ages, nationalities and cultures.

The power of collective meditation. Best of all, online meditation at SOL enables you to harness the power of collectivity as you plug into the universal energy of the cosmos along with other meditators from all across the globe. Collective meditation in an optimized environment with a group of people who are “on the same frequency” can be exhilarating and rejuvenating, and result in deeper benefits. In fact, generally, the larger the group, the better the experience. **And true collectivity is only achievable through the state of thoughtless awareness, which is unique to Sahaja meditation.** Collective meditation can also help you progress faster in the initial weeks, compared to meditating at home by yourself. Sahaja Online was uniquely designed to take advantage of this collectivity mechanism by offering everyone across the globe the first complete and totally free form of collective meditation.

Guidance and shared experiences.

If you need help, expert SOL instructors and meditation coaches are always available to provide guidance and support for your individual Sahaja journey. Most meditators find that having the support of a seasoned practitioner helps them make progress more quickly.

The SOL Practitioner Video Library offers a wealth of practical tips, shared perspectives and experiential learning from long-time Sahaja practitioners that will help you understand what to expect from Sahaja meditation and learn how to improve the quality of your meditations.

Organize an in-person meditation event.

Once you've become a seasoned Sahaja practitioner, you may wish to attend — or even organize — In-Person meditation event at a location near you. Here you can experience the power of collective meditation, learn advanced Sahaja concepts and take your Sahaja experience to the deepest levels imaginable. You'll find downloadable guides at SOL to help you get started.

Downloadable resources.

In the SOL Library, you'll find D.I.Y. guides, motivational tools and music to meditate by. You can explore the subtle energy system in depth, including comprehensive downloadable guides that detail the location, traits and characteristics associated with each energy channel and energy center, or chakra. You'll also find guides that reveal tips and step-by-step techniques that will help you learn how to meditate.

How much does all this cost?

Not a penny! Everything at Sahaja Online is free. Online meditation programs, coaching, knowledge and advice... there's nothing to buy, now or ever. Why? Because the Sahaja technique was intentionally designed to be passed freely by any individual to any other, without money changing hands. The mission of Sahaja meditation, ultimately, is to help each individual become a better person, one at a time, so that the world automatically becomes a better place.

Continuing that legacy is the goal of Sahaja Online. If you'd like to contribute to our cause, the best way to help is to pass the word along — get a friend, family member and colleague to join Sahaja Online and improve their lives.

SOL's mission is to help human beings collectively transcend the boundaries of their homes, cities, countries, cultural backgrounds and faiths and come together to experience and enjoy the limitless power of love.
